

Project Team Meeting

March 16, 2022

Since the Safety at Work Association of Montenegro has become a member of the YouthHUB Network of the Western Balkans and Turkey, they will implement the project "Dignified Work Begins While You're Young" funded by the European Commission in the next year. In light of this, the project team members held a meeting on March 16, 2022. The meeting was attended by the president, Zdenko Janković, vice presidents Zlatko Popović and Branislav Šebek, board member Nebojša Vujeošević, project coordinator Đina Janković, and intern Ana Vuković.

Given that the aim of this project is to increase the participation of young people from the NEET category in the labor market through the improvement of workplace safety and the promotion of a culture of injury and illness prevention, a plan was devised for the implementation of planned activities for the upcoming period. During the initial phase, the focus will be on developing a questionnaire for research on the number and types of injuries among young people in the workplace, as well as the types of occupational illnesses and work-related diseases. The research will target two groups of young people: those who have reported their injuries/occupational illnesses to the relevant institution and those who, for various reasons, have not done so and have been deprived of their rights that are due to them on that basis.
